The NEW ENGLAND JOURNAL of MEDICINE

About the New England Journal of Medicine

The *New England Journal of Medicine* (NEJM) is a publication of NEJM Group — Owned & Published by the Massachusetts Medical Society.

Published continuously for over 200 years, NEJM delivers high-quality, peer-reviewed research and interactive clinical content to physicians, educators, and the global medical community.

Their mission is to bring physicians the best research and information at the intersection of biomedical science and clinical practice and to present this information in understandable and clinically useful formats that inform health care delivery and improve patient outcomes.

The NEW ENGLAND JOURNAL of MEDICINE

The New England Journal of Medicine (NEJM) is the world's leading medical journal and website.

More than 600,000 people from nearly every country read NEJM in print and online each week.

NEJM is cited more often in scientific literature than any other medical journal, and has a **Journal Impact Factor of 70.670**, the highest of all general medical journals.

Each year, NEJM receives more than 16,000 research and other submissions for consideration for publication.

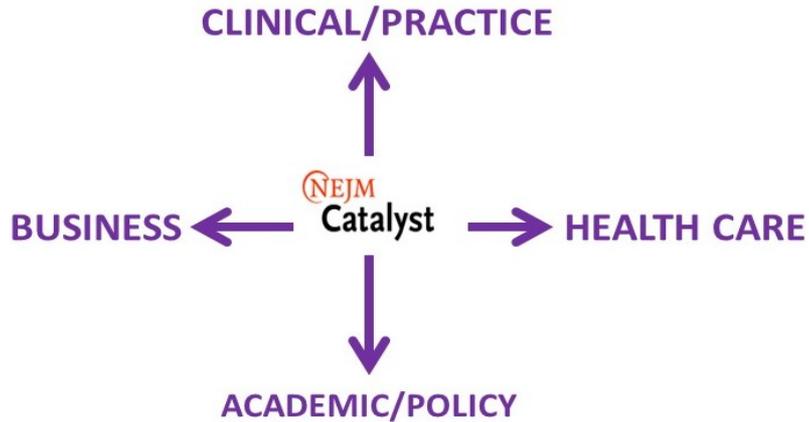

The NEW ENGLAND JOURNAL of MEDICINE

A vital resource for teaching and research, the NEJM Archive includes more than 150,000 articles from 8,657 issues dating back to 1812: high-resolution, fully searchable articles, including cover and advertising sections where possible.

Available for one-time purchase in two parts: NEJM Archive 1812-1944 (*PDF-only format*) and NEJM Archive 1945-1989 (*PDF and HTML formats*).

Practical Innovations in Health Care delivery

- Leading information source for innovative and practical ideas to improve patient care, with In-depth articles on the big issues in health care, expert articles, case studies, Insights Reports, Insights Interviews and event clips
- Peer-reviewed, digital-only subscription journal
- Six issues per year, launched Fall 2019

Journal Watch

Summarizes the most important articles from over 250 medical journals to help clinicians understand and use the latest medical research to improve patient care.

- “Guideline Watch” articles summarizing key points of clinical guidelines
- Physician’s First Watch email alert delivers curated summaries of breaking medical news every weekday morning
- Exclusive online media, including podcasts, blogs, and audio interviews
